Form 20-F for the Fiscal Year Ended December 31, 2021

Notes to Consolidated Financial Statements

Note 4. Segmentation, page F-41

1. Refer to your response to comment 5. You disclose in the note (i) the group has one operating segment which is also its only reporting segment, (ii) "As the group only has one reporting segment, all relevant financial information is disclosed in the consolidated financial statements," and "... financial information, including Adjusted EBITDA ... are only provided on a consolidated basis." You confirm in the response you only have one operating and reportable segment and Adjusted EBITDA is presented for the company as a whole. IFRS 8 defines operating segment as a "*component*" (emphasis added) of an entity. It appears clear from the basis for conclusions for IFRS 8 and predecessor

guidance the core principle of segment information was regarded as a disaggregation of an entity's information. Additionally, entity-wide disclosures required by IFRS 8 for entities that have a single reportable segment do not call for an entity-wide or consolidated measure of profit or loss used to assess performance and allocate resources. Accordingly, it appears your presentation of Adjusted EBITDA in the notes to the financial statements is not consistent with the core principle of IFRS 8 and thereby not permitted to be disclosed in the notes to the financial statements. Please revise your disclosure accordingly.
